

CHRISTIAN M. TANIA

MANDALUYONG CITY, PH | tania.dev.ph@gmail.com | +639353198827

SUMMARY: With 7 years of hands-on experience, I work as a Full Stack Developer focused on building reliable backend services, APIs, and microservices using C# and ASP.NET Core. I've also worked extensively with Azure for managing source control and deployments. On the front end, I've developed and maintained applications using Angular, and have built cloud solutions with AWS Lambda (Node.js) while managing data through MSSQL.

SKILLS:	Programming Language	C#, JavaScript, SQL, TypeScript
	Frameworks	ASP.Net, Angular, NodeJs
	Cloud Platforms	Azure, Github, AWS(Lambda Function, API Gateway, Serverless Deployment, Cloudwatch
	Tools	Git, Agile Scrum, Postman, Talend
	Database	MS SQL Server

EXPERIENCES: **Frontier Software Asia, Inc.**
WEB DEVELOPER (*July 2023 – Present*)

- Develop a backend service using the Microservice Architecture using C# ASP.Net Core 8.
 - Created the initial architecture of the microservice.
 - Used and implemented Serilog as the logging framework for the service.
 - Implemented token authentication using JWT Bearer.
 - Developed middleware for decrypting user credentials.
 - Configured dependency injection using interfaces and managed service lifetimes through Autofac, an advanced IoC container integrated with ASP.NET Core.
 - Created a pipeline using YML for packaging the microservice using Azure Pipelines.
- Create sprint release branch for testing phase using the Azure Repository.
- Develop and maintain software applications using Angular 12, RxJs and NGXS.
- Maintained three existing Angular 12 projects: Organizational Chart, Payslip Portal, and Payslip Verification.
 - Create mobile responsive.
 - Fixing bugs/issues found by client.
 - Create unit test for services and components.
 - Created interceptor for http call.
 - Implement api request and response encryption.
 - Implement lazy loading for data retrieval.
 - Integrate Syncfusion library to Organizational Chart.

Accenture, Inc.
SOFTWARE ENGR. SENIOR ANALYST (*June 2022 – June 2023*)
SOFTWARE ENGR. ANALYST (*April 2021 – May2022*)

- Assigned as Developer Lead.
- Convert C# Web services to C# ASP.NET CORE services.
- Assigned to manage branching for minor release using Azure Git Repository.
- Upload script to deploy in higher envi using Azure Pipelines.
- Develop and maintain web applications using Angular 14.
- Created AWS Lambda function using NodeJs.
- Create and update SQL stored procedure, views, and functions using MSSQL.
- Conduct code reviews.
- Assess User story and present during a meeting.

Systems & Software Consulting Group
PROGRAMMER II (*May 2020 – April 2021*)
PROGRAMMER I (*March 2018 – April 2020*)

- Develop a backend using C# ASP.NET MVC API and MSSQL.
- Develop and maintain existing features or functions in a system using Angular 4, KnockoutJs, Bootstrap.
- Deploys the system on client-server using IIS server.
- Create and update SQL stored procedure, views, and functions.
- Participating User Acceptance Testing with the respective clients.

PROJECTS:
Agent Loan Application System (ALAS)

- Develop from the scratch using C#(ASP.Net MVC EF) and Angular 4, MSSQL, and Xamarin for the mobile application.

Investment Management Information System (IMIS)

- Develop and maintain using C#(ASP.Net MVC EF), KnockoutJS, and MSSQL

PERSONAL PROJECTS: **Inventory Management System**

- Created a fully functional feature to add, edit, and delete products in the inventory.
- Developed using Angular v18 for the front-end, ASP.NET Core 8 for the back-end, and MSSQL for the database.

Resume Builder

- Built a simple resume builder where users can input their data and, with one click, generate a professional-format resume and export it to PDF.
- Developed using Angular v18, with JsPDF library for exporting PDF file, NGXS for state management, and Bootstrap for styling.

FreeSkwela

- Created a simple landing page that displays a list of free trainings and hackathons in the Philippines.
- Developed using Angular v20 and Bootstrap for styling, with data fetched from a REST API.

EDUCATION: **Isabela State University**, Echague, Isabela
Bachelor of Science in Information Technology - April 2015
